| Regione Toscana Pegaso Project 2018 | University of Florence  
University of Pisa  
University of Siena |
| INDUSTRIAL AGREEMENTS | KKT s.r.l. – Florence  
Subsidiary of Fleetmatics Italia s.r.l. – (a Verizon Company) |
| CURRICULA | NO |

---

**POSITIONS AVAILABLE:** 15 + 1 reserved for employees of KKT s.r.l.

Positions with scholarship: 12  
Positions without Scholarship: 3*  
* standard ranking only

---

**Ranking List for STANDARD POSITIONS scholarships available:** 7

4 – University Florence  
3 – Regione Toscana **Pegaso Scholarships 2018**

---

**Ranking List for SPECIFIC RESEARCH TOPICS SCHOLARSHIPS positions available:** 5

3 – Regione Toscana **Pegaso Scholarships 2018**

1. “Natural Language Processing by Deep Learning”  
2. “Network Monitoring and Management in the Future Internet”  

1 – University of Florence – **Fondo Pluriennale Piano Strategico 2018**  
“Analysis and interpretation of 4D microscopy data”

1 – Fondazione Bruno Kessler (FBK)  
“Building Quality Event-centric Knowledge Graphs from Text”

---

**INDUSTRIAL DOCTORAL PROGRAMME – RESERVED POSITION:** 1

1 – position reserved for employees of KKT s.r.l.

---

**STUDY/RESEARCH PERIODS ABROAD**

YES – for Pegaso Scholarships 2018 only

---

**MANDATORY PERIOD REQUIRED**

6 months
<table>

<td>• Abstract of the M.Sc. thesis</td>
</tr>
<tr>
<td></td>
<td>• Research project</td>
</tr>
<tr>
<td>REFERENCE LETTERS</td>
<td>A section is provided in the online application to specify the e-mail addresses of two professors/researchers willing to provide information about candidates training path and activities performed within a scientific field related to the Ph.D. course.</td>
</tr>
<tr>
<td>RESEARCH PROJECT</td>
<td>The research proposal should be written in English and should be submitted as a PDF file. The length may not exceed 12,000 characters. The research proposal should describe a three years project having a high potential for a novel scientific contribution in any area related to smart computing. In the proposal, briefly summarize the state-of-the-art, identify one or more open problems, explain why solving these open problems is significant, and describe a research plan, possibly addressing the associated risk factors and strategies for dealing with insuccess. The research proposal needs not to be directly related to one of the reserved research topics (see below) for which you may want to apply. In facts, this proposal will not be even used to bound you to do research in any particular area, it just serves the purpose of assessing your technical writing skills, your ability to envision sensible long-term research goals, and your ability to plan and evaluate research activities.</td>
</tr>
<tr>
<td>MODALITY OF EVALUATION</td>
<td>• Evaluation of curriculum vitae, research project, publications and other qualification documents</td>
</tr>
<tr>
<td></td>
<td>• Interview as detailed in the section below “Evaluation Marks”</td>
</tr>
<tr>
<td>LANGUAGE FOR THE EXAMINATION</td>
<td>English for all applicants</td>
</tr>
<tr>
<td>SKYPE INTERVIEW</td>
<td>YES – possible for residents abroad only</td>
</tr>
<tr>
<td>FURTHER INFORMATION ABOUT EXAMINATIONS</td>
<td>Note on applications for the “specific research topic scholarships”:</td>
</tr>
<tr>
<td></td>
<td>A subset of the available positions will be reserved to the specific research topics listed below. To be considered for one of these positions, please select one or more of them during the application process. Since we strive to fill as many of these positions as possible, by applying for one or more reserved positions you may significantly increase your chances of being accepted in the program. You may apply for as many reserved positions as you wish. During the interview, there will be one additional test for each reserved positions you...</td>
</tr>
</tbody>
</table>
have applied for. Passing the test is a necessary (but not sufficient) condition for accessing the corresponding reserved position. Failing one or more of these tests will not reduce your chances of being accepted for the remaining (non-reserved) positions.

There are additional thematic positions (not reserved) that do not require a specific test.

Topics are listed at [http://smartcomputing.unifi.it/procedures.html#positions](http://smartcomputing.unifi.it/procedures.html#positions)

<table>
<thead>

<tr>
<td>Research proposal</td>
<td>27/120</td>
<td>40/120</td>
</tr>
</tbody>
</table>

Applicants scoring at least 54/120 on the above parameters will be shortlisted for interview.

Interview (including a discussion of the research proposal) in English language

Candidates with an overall score below 80/120 cannot be admitted to the program.

**THEMATICS**

- Artificial Intelligence
- Computer Networking
- Computer Vision
- Computer Architectures
- Conversational Agents
- Data Analysis and Social Network Data Analysis
- Fog/Edge computing in IoT
- Embedded and Cyber-physical Systems
- Machine Learning
- Neuroinformatics
- Pervasive Sensing & Computing
- Quantitative evaluation and verification of concurrent systems
- Security and Privacy in Smart Systems
- Software architectures and engineering methods
