This course is part of the International Master of Affective Neuroscience, a postgraduate programme by the universities of Maastricht and Florence, a combination of residential courses and distance teaching.

The programme offers a scientific training in the subspecialty of affective disorders. Taught by leading scientists, the programme deals with the latest developments in the field. It is a perfect complement for professional training in psychiatry, clinical psychology and neuroscience.

The course can also be taken as a single course in the Summer School on Affective Neuroscience, leading to a certificate, that includes this course and the Summer Course on Fear, Anxiety, Obsessions & Trauma.
